## JINJA TOUR

*Jinja Town is located on the northern shores of Lake Victoria above the Ripon falls. The town is one of Uganda's largest towns and lies about 80 km east of Kampala overlooking the point where the Nile flows out of Lake Victoria and probably it is the Nile that is attracting more people other than the town itself. However the town is gradually resurrecting to its former glory with the population increasing and so many suburban mansions coming up, good infrastructure and now the town provides some of the most popular and attractive tourist activities.*

This tour begins at 7:00am when you will be collected from your hotel or place of residence.

First stop over at Sezibwa falls and then Mabira forest. On arrival at Mabira tropical forest, enjoy a forest walk- where several forest birds and some primates can easily be seen. Look for Colobus monkeys and birds. Enjoy a picnic lunch after the forest walk.

Thereafter, proceed to Jinja Town, where you will see the Owen Falls Dam and the source of the River Nile. There will be time for photographs and a boat trip at the source of the Nile before it makes its remarkable journey through Africa.

End your day with a leisurely lunch before returning to Kampala in the late afternoon.
